

During the Summer term, Year 2 will be covering a variety of topics and subjects. Under the curriculum tab on our school's website there are detailed maps of the Maths, RE and PSHE curriculums. There are also documents that outline the objectives to be covered for each year group in English, Computing and all other subject including Science, Art, and Geography etc (called curriculum coverage objectives). Below we have outlined what topics or units Year 2 will be covering to fulfil these areas of curriculum. The specific objectives are not listed as they may change or be targeted at different levels during the year.

English –

- Action and Adventure
- Recounts
- Poetry
- Spelling, Punctuation and Grammar – **Binds Our Learning (SPAG BOL!)**

Maths –

- Number
- Measurements
- Geometry
- Statistics

Computing - Basic skills and e-safety

Science – Animals including humans and Working Scientifically

Topics:

Summer 1 – Growing up and moving on

We will be linking our Science topic of 'Animals including humans' to look at the stages of development and think about what our aspirations are as we grow up. Year 2 have been on a tremendous journey this year and we will continue this journey by thinking about everything that is important to us and what we want to achieve as we grow.

Summer 2 – Music from 'The Mersey'

As the final countdown is on to the summer, we are going to be celebrating our challenging work and achievements this year by listening and dancing to as much music as possible (whilst learning the History behind the music of course!)

This half term, we will be looking at the legendary music that has been made famous from a special little corner of the world, Liverpool. We will be particularly looking at music from The Beatles and how music in 1960s put our locality on the map.

**We will be working very hard this year but having lots of fun
at the same time!**
