

Year 6 Rotary Award

The Junior Community Award scheme began in 1997 as a way to involve young people in a direct and positive way to use their skills and abilities to benefit both themselves and the local community.

The reward programme aims to create a healthy attitude towards physical recreation and developing personal skills and, by understanding the community, helping to lower the incidence of bullying, discrimination and racism.

The programme consists of:

- Community Service, in the form of ten weeks of charitable work
- Social Experience, in the form of community meetings, arts performances and commemorations or celebrations
- Physical Recreation developing a new skill in sports such as swimming, dancing and martial arts
- Skill development in areas such as computing, cooking, painting or playing a musical instrument

The award helps the children to bridge the generation gap, learn about the joys and challenges of volunteering, practice new skills and gain confidence and a feeling of self-worth.
