

20 Books to Read Before you Leave Y5

Here's a list of books to try and read in Year 5. Your challenge is to try and read half of them before the end of the year (if you've already read them, you can tick them off, but they don't count towards this year!)

The first row are books you may read as part of your curriculum, so please only read them when your teacher gives them to you or after the term it is used! The other 3 rows are a mixture of genres, themes and classic or modern stories. Try to mix up your choices and then post a review on your class's reading blog. Every half term the best reviews will win a prize!
